New Things in Millinery That Will Please Every Man's Fancy.

So many pretty things in millinery are shown by the dealers that it is difficult for the purchaser to make a choice. Straws of all colors, both fine and coarse, chip, neapolitan braid, lace and jetted wire are all worn. It seems as if every material that was ever used for hats and bonnets is in vogue this season. Buckles, feathers, flowers, ribbon, velvet, spangles, large

BLACK AND YELLOW HAT.

Large imported hats of white lace are displayed in the window of a store, profusely trimmed with daisies, cornflowers and poppies, among which were placed small sprays of yellowish lilies of the valley. A bit of cream lace and a gold ornament completed the decoration. When flowers are used, a spray is usually allowed to rest upon the hair. The trimming consists of a row of black moire ribbon fastened by a large gold buckle and black jetted Prince of Wales tips.

The hat of which an illustration is given is of very coarse straw. It has a black crown, but the brim, except the outer edge, is gold colored. It is plainly faced with black gimpure, bordered with a band of gold spangled galloon. The brim is bent becomingly and caught upon the left side by a row of black moire ribbon, which touches the hair. The trimming consists of a row of black moire ribbon fastened by a large gold buckle and black jetted Prince of Wales tips.

JUDIC CHOLLEY.

A Virginia Witch.

Lily Hughes, a noted witch, yet lives in a destitute condition at the county poorhouse. She has a son moderately well to do, but disowning her because of her witchcraft.

She also has been shot by proxy with a silver bullet for the death of a cow. Her neighbor drew upon paper with juice of pignon root and with the art of a skilled mountaineer Lily Hughes' portrait. This where the cow died and shot the portrait with a silver bullet. Lily next day appeared very lame in the hip joint.

She is lame yet from the silver bullet. Sometimes her evil genius gets angry with her, as it did when she stirred a soap kettle not long ago. The matron of the infirmary left her in charge of the kitchen, which was boiling at its highest, out under the sycamore trees on the creek bank. For a few minutes all went well, and the soap did its best to colorize the country. Then suddenly the witch was heard to yell, and upon running to her it was found that the kettle, firestones and all the apparatus were sliding in the bottom of the creek, while old Lily cried with all a witch's agony that she was burned, burned. There was not a drop of hot soap on her clothing. The matron assured her with all the candor that she could summon that Lily positively had no sign of a burn.

Yet her back and limbs were badly injured. Even the animals on the poor farm are reported as afraid of Lily. She can scatter a whole flock of sheep in a field by merely standing in the cabin door and pointing her oaken cane at them half a mile away.

The paupers fear her more than death. The whole county can testify to a strange power she possesses and to the peculiar influence she has over the ignorant.—Cor. Chicago News.

The annual product of the woods is worth three times as much as the wheat crop. It exceeds the gross income of all the railway and transportation companies and it would more than wipe out the entire public debt.

A Maine farmer, who sent ten cents to learn how to run a farm with a few potatoes, got this reply by postal card: "Plant fruit trees instead of potatoes."
